About Me

I am a final-year student majoring in Information Systems, with a solid foundation in system analysis and proficiency in developing both mobile and web applications. I am passionate about creating optimized, user-friendly products that meet real-world requirements. With enthusiasm and a strong willingness to learn, I continuously enhance my professional skills, contribute to projects, and strive to become a valuable member of any development team.

PROJECTS

Language Learning App (Apr 29, 2024 – Jul 28, 2024)

Role: System Analyst

- Analyzed requirements and designed detailed specifications for a mobile language learning application with lesson modules, flashcards, and assessment features.
- Created workflows and database structure to support study reminders and progress tracking, ensuring scalability and optimal user experience.
- Developed the front-end interface to deliver an intuitive and engaging learning experience.
- **Technologies**: Java, Firebase

Bakery Ordering App (May 5, 2025 – Present)

Role: Sole Mobile App Developer

- Independently designed and developed the entire online bakery ordering application, covering UI/UX design, product selection, order placement, payment integration, and order tracking.
- Implemented real-time push notifications to keep users updated on their order status.
- Managed the full project lifecycle, including requirements analysis, UI/UX design, coding, testing, and deployment.
- **Technologies**: Dart, C++, HTML, C, Firebase, MongoDB

Perfume E-commerce Website (Aug 26, 2024 – Nov 17, 2024)

Role: Sole Web Developer

- Designed and developed a professional perfume e-commerce website using WordPress, featuring an elegant, fully responsive interface optimized for both desktop and mobile devices.
- Integrated essential e-commerce functionalities, including product catalog, shopping cart, secure checkout, and order management.
- Customized themes and plugins to enhance performance, improve SEO, and deliver a seamless shopping experience.
- **Technologies**: WordPress, WooCommerce, HTML, CSS
